

UV Exposure Unit

A full range of Exposure Units, various sizes, models and power ratings are available. These units have the advantage of being able to be used in an area without the need to be curtained off. The units are of a steel construction with the UV lamp and control gear being mounted at the bottom.

The controls are conveniently located on the front panel and the glass and rubber vacuum is at working height. The high volume vacuum pump gives a quick contact time and the lamp can be operated by either a timer or a UV monitor.

The monitor can be upgraded to a multi channel unit which gives you the choice of 15 pre-set exposure times and allows for the reduction of UV output as the lamp ages.

Models	Model 1	Model 2	Model 3	Model 4
Max Frame	700x1050	1000x1300	1280x1800	1300x1900
Light Strength	2 or 3 KW	2 or 3 or 5 KW	2 or 3 or 5 KW	6 KW
Height	1350mm	1350mm	1350mm	1350mm
Width	1290mm	1540mm	2040mm	2140mm
Depth	6976mm	1276mm	1556mm	1576mm
Current	13 Amps	13.25 Amps	13.25 Amps	32 Amps
Voltage	220/240v	380/415v	380/415v	380/415v

*These can be 220 Volts, 3 Phase at 50/60Hz
